APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the 0.25 c.f.s., herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to a beneficial use. A suitable measuring device must be installed and accurate measurements of the water placed to a beneficial use must be included in the proof of such use when filed. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined annual duty of water under this permit and Permits 30300 and 30302 shall not exceed 31.54 million gallons annually.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.25 cubic feet per second, but not to exceed 31.54 million gallons annually.

Actual construction work shall begin on or before.....February 17, 1978.....

Proof of commencement of work shall be filed before.....March 17, 1978.....

Work must be prosecuted with reasonable diligence and be completed on or before.....February 17, 1979.....

Proof of completion of work shall be filed before.....March 17, 1979.....

Application of water to beneficial use shall be made on or before.....February 17, 1982.....

Proof of the application of water to beneficial use shall be filed on or before.....March 17, 1982.....

Map in support of proof of beneficial use shall be filed on or before.....

Commencement of work filed.....MAR 27 1978.....

Completion of work filed.....MAR 26 1979.....

Proof of beneficial use filed.....MAR 13 1982.....

Cultural map filed.....

Certificate No. 10023 Issued JUN 22 1982

Section 34 - All

## Remarks (Continued)

9. Water systems will be developed and expanded to meet the requirements of Park Development Program at Lahontan. This development will be in accordance with the Lahontan Reservoir General Recreation Development Plan and will progress at a rate to be determined by the Legislature. At this time, \$1.6 million is available for park development; approximately \$400,000 will be spent on water system development at this time (75-77). Total water system development will cost approximately \$1 million.
10. Work covered in the Lahontan Reservoir General Recreation Development Plan is expected to take 10 years to accomplish. This time, however, is entirely dependent on legislative funding and approval.
12. Proposed uses include park personnel residences, shop and maintenance facilities, park concessions, and general recreation uses. The principal use areas as shown in the General Recreation Development Plan are Churchill County Beach, North Shore Marina and Silver Springs Beach.

Additional planning and design information is available from the State Park System on request.
